STAUNTON, VIRGINIA

IN THE HEART OF THE SHENANDOAH VALLEY

STAUNTON CHAMBER OF COMMERCE

For the past decade the eyes of the nation have been fixed upon the great Shenandoah Valley of Virginia with ever-increasing interest. Beauty of scenery, historic background, and natural wonders have drawn their tens of thousands of visitors with the passing years, but the vast wilderness tracts of the Shenandoah National Forest Reservation in the Western Alleghanies and the primeval beauties of the proposed Shenandoah National Park in the Blue Ridge will draw their hundreds of thousands in the years to come.

Staunton, the county seat of Augusta County, situated among the fountains of the Shenandoah River, at the intersection of the Midland Trail and Lee Highway, and of the Chesapeake and Ohio and Baltimore and Ohio railways, with hard-surfaced roads and rail connections to the cardinal points of the compass, and lying midway between the great Federal park and forest projects, is easily the most important city within a radius of nearly a hundred miles of territory, contrasting the alluvial richness and productivity of its meadows and river bottoms with the rugged beauty of its mountain scenery.

As a little settlement on the outskirts of civilization, Staunton early attracted attention and attained importance far in excess of her size and population. Occupying a strategic position in relation to the larger cities of the East, bearing a proud history, identifying her with the records of the entire nation, endowed by nature with a delightful climate and unsurpassed mountain and valley scenery, with half a dozen of the greatest natural wonders of the world near her doors, it follows as a matter of course that Staunton should make her strongest appeal as a residential and educational center. Yet there is here an industrial stability, a financial strength and soundness

that offer ever-increasing opportunity to those who seek the paths of commerce or the marts of trade, while the broad acres of Augusta are ever beckoning to the agriculturist, the fruit grower, and the stock raiser.

Highly individualistic, esteemed for her hospitality in a notably hospitable State, Staunton presents both a friendly and a cultured atmosphere to the visitor; and the home-seeker, desiring a place to dwell in peace and comfort, to raise and educate his family, soon falls under her magic spell and remains to be numbered for the remainder of his years as an adopted son.

POPULATION

Staunton has a population of some 12,500, while Augusta County, of which she is the county seat, has nearly 40,000 more. Over 99 per cent of this population is native-born American stock, including 13.2 per cent of the colored race. Illiteracy is at a low ebb and the problem of the unemployed is almost unknown here, most of the unskilled labor, as well as the skilled, being absorbed in the factories and industries of the community.

HISTORICAL

Augusta County, of which Staunton is the capital, is one of the largest and most productive counties in Virginia. Prior to 1784, when Virginia ceded the Northwest Territory from which later came the States of Ohio, Indiana, Illinois, Wisconsin, and Michigan, Staunton was the seat of government of this vast empire which, according to the wording of the Virginia London Company's grant in 1609, reaches from the Atlantic Ocean "west and southwest to the South Sea," as the Pacific Ocean was then believed to be.

Staunton, founded by John Lewis and John Mackey, was named in honor of Lady Staunton, wife of Governor Gooch, and was chartered in 1749. The extent of the domain over which she reigned in early Colonial days may be gained from the fact that court was on one occasion adjourned at Staunton to meet at Fort Duquesne, or what is now the city of Pittsburgh, Pa. Early court records, the deed to the Northwest Territory signed by the chiefs of the "Five

Nations of the North," and other important documents may be seen at the county clerk's office.

In 1781, when Colonel Tarleton, raiding toward Charlottesville, drove the Virginia legislature across the Blue Ridge, they found a safe refuge in Staunton, holding their sessions for a time in old Trinity Episcopal Church, thus making Staunton the temporary capital of Virginia.

Next to Richmond, Staunton during the Civil War was the chief base of supply for the Army of Northern Virginia, and for Jackson's famous Valley campaign. It was twice occupied by Federal troops, but not until the latter part of the war. Near Staunton were invented the reaper and the sewing machine, and here Woodrow Wilson was born.

"The Staunton Plan," or City Manager form of municipal government, first saw the light of day in Staunton in 1908, and spread rapidly over the country.

RELIGIOUS

Here religious toleration found an early haven and has since endured. Religious zeal and the right to worship God according to one's own conscience were determining factors in the upbuilding of the community. While a number of creeds were represented by the early settlers, they adjusted their differences amid the common dangers of the wilderness and lived together in brotherly love and harmony. Seventeen handsome and flourishing Protestant churches now exist in Staunton—five Methodist, three Presbyterian, two Episcopal, four Baptist, one Lutheran, one United Brethren, and one Brethren, all united in the Staunton Ministerial Association, while there is also a Catholic church and a Jewish synagogue.

EDUCATIONAL

Staunton is best known throughout America and abroad for her schools. City and county together have nine private educational institutions, one college for young women, and one State school. So high are the standards of all these schools that they have con-

tributed largely in making the Shenandoah Valley nationally famous as an educational center.

The most widely known schools are the three military prep schools for boys, two prep schools for girls, one college for young ladies, and two business colleges. The public schools in both city and county are among the finest in the South. There are five private schools of music.

INDUSTRIAL

While Staunton has many prosperous industries, such as overall, men's wear, pennant and furniture factories, ice plants, cold storage plants, flour mills, and iron foundry, machine shops, several of the largest garages in the State, ice cream plants, a fertilizer factory, horse and cattle markets, a brick plant, limestone and lime grinding plants, with talc and manganese mines nearby, its industrial development is just beginning to gain speed. Excellent opportunities are offered for lumber mills, textile plants, canneries, apple by-product plants, factories for farm implements, automobile accessories, and the like.

AGRICULTURAL

Staunton offers an excellent market and shipping point for grain, fruits, vegetables, and other products raised on farms and gardens for miles around. Augusta and adjoining counties are primarily in the blue grass limestone section. Augusta alone has 3,759 farms with an average of 110 acres each, the total valuation of which is approximately $50,000,000. The wheat crop averages $2,500,000; corn, $2,225,000; and hay, $1,500,000 annually. A considerable amount of sawed timber, railroad ties and telegraph and telephone poles is shipped annually.

STOCK RAISING

Augusta is the leading county in the State in beef cattle and horses and in live stock generally. It is first in wheat and hay, second in poultry, which is a fast-growing industry, and third in dairying, which is also making rapid strides. It has some of the finest herds

of pure bred live stock in the East and offers great opportunities to all interested in any or all branches of stock raising.

FRUIT GROWING

Augusta's apple industry is second only to Frederick County, in Virginia, and is rapidly increasing. There are approximately 15,000 acres in orchards, valued at over $5,000,000. The average annual crop value, including peaches, pears, and small fruits and berries, is over $1,500,000.

MERCHANDIZING

Staunton is the hub of a trading radius of some fifty miles, with a trading population of over 100,000 inhabitants. Her spacious and thoroughly modern stores of every kind, wholesale and retail, are noted throughout the State. In addition to the general business, there is always a brisk trade in farm supplies.

HOTELS

The Stonewall Jackson Hotel, newly built at a cost of three-quarters of a million dollars, is one of the finest tourist hotels, in structure, appointments, and service, in the State, while first-class accommodations are furnished the general public at the Beverley, the Shenandoah, the Kalorama, and other modern hostelries.

CLUBS AND SOCIETIES

Practically every nationally known fraternal or luncheon society has a chapter in Staunton. Here we have the Rotary Club, the Kiwanis Club, I. O. O. F., Masons, Junior O. U. A. M., W. O. W., K. of C., F. O. O., Knights of Pythias, T. P. A., Boy Scouts, Campfire Girls, and many like organizations.

Y. M. C. A.

Staunton's $100,000 Y. M. C. A. building, one of the finest in the State, was made possible by a generous contribution from the

McCormick family of Chicago, as a memorial to Cyrus McCormick, inventor of the reaper. It also houses the public library and is the chief civic center.

THEATRES

Staunton has two legitimate theatres, two moving picture theatres, and three halls or auditoriums, with a total seating capacity of 4,000.

LIGHT, POWER AND WATER

The city has its own light and power plant for municipal purposes, while gas and electric heat, light and power are available in ample quantity from two strong public service organizations. The city also owns its own water system, which was recently completed at a cost of over three-quarters of a million dollars. The source of supply of pure mountain soft water is the Alleghany mountains, a distance of twenty miles from the city.

FINANCIAL

Augusta County and city of Staunton have sixteen banks with total resources of $12,564,760.00. The city government is financially sound and economically administered under the commission manager plan, which Staunton originated.

CLIMATE

Few people have ever visited this section at any time of the year without remarking upon its superb climate. The annual mean temperature is 53 degrees, while the average summer maximum is 83 degrees. The summers are never excessively hot, while the winters are mild, there seldom being more than six or eight weeks of bad weather, usually in January and February.

The annual rainfall is 42.50 inches, mostly in the spring and early summer, when needed for growing crops. The late summer and fall are usually dry. Prevailing winds are from the west. The elevation is 1,400 feet.

SPORTS AND PLAYGROUNDS

Public tennis courts and children's playgrounds are maintained at Gypsy Hill Park, while the park itself is the chief municipal recreation ground, with summer concerts by the Stonewall Brigade Band.

There is also a public and a private baseball park, two golf clubs, and a new golf course is being constructed.

HUNTING AND FISHING

Some of the finest quail, grouse and turkey shooting in the State may be found within an hour's motor ride of Staunton, while bear and deer abound in the Alleghanies. There is also good trout and bass fishing in season, and the Shenandoah Game and Game Fish Protective Association, with headquarters at Staunton, is actively engaged in a movement to conserve the supply of both fish and game.

PROPOSED NATIONAL PARK

The proposed Shenandoah National Park, approved by the Federal Park Commission and a preliminary survey ordered by Congress, comprises the heart of the Blue Ridge mountain range, a strip running seventy-five miles from Front Royal at the north to Waynesboro on the south and averaging nine to twelve miles in width. It contains nearly 700,000 acres and holds within its boundaries all the beauties of the ancient wilderness. It is within easy reach by good roads of 40,000,000 people.

NATIONAL FOREST TRACTS

But a few years ago the Federal government started purchasing mountain land in the Alleghanies for the eastern forest reserve system, and in the Shenandoah National Forest Reservation now owns over 350,000 acres of wild mountain country, open in season to hunters, fishers and campers, and patrolled by forest agents and fire wardens.

PREFACE—CONTINUED

This tract, as well as the Massanutten and Natural Bridge tracts, is but a few miles from Staunton.

NATURAL WONDERS

Four great caverns, the Grottoes of the Shenandoah, Endless Caverns, the Shenandoah Caverns, and Luray Caverns, all famous the country over for the marvelous beauty of their underground glories, are within striking distance of Staunton; the great Cyclopean Towers are but sixteen miles distance, and Natural Bridge, unique in its kind of nature's handiwork, is only forty-eight miles.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

HILL'S
Street and Householders' Directory
. . OF . .
STAUNTON, VA.
1927

Copyrighted, 1927, by Hill Directory Co., Inc.

In this section the streets are arranged in alphabetical order, the numerically named streets follow immediately the named streets in numerical order, without regard to geographical location, the intersecting streets being shown at proper intersection. The number of each building on the street is given in numerical order, and opposite the number the name of the occupant householder. In the business blocks containing offices and stores the occupants of each place are shown. In some of the outlying districts the street numbers are incorrect, the houses not numbered, or are so scattered that it was not thought advisable to include in the Householders' Directory such streets in this issue. The name of every inhabited street, however, is given with full description. The list includes all alleys, avenues, courts, places, circles, squares, terraces and sub-divisions, giving their location as near and concise as possible.

The profession, business, etc., of individuals and firms will be found in the Alphabetical section of this directory.

Every effort has been made to insure accuracy in this issue. If your house does not appear upon its proper street, or if the street upon which you reside does not appear, we will thank you to notify us so that correction will be assured in the next issue.

Note.—Dash (—) before name denotes that the house should have a number between the one preceding and the one following it. (* * *) between two intersecting streets show there are no houses between them.

J. L. Hill, Jr., Richmond.
H. A. Manning, Springfield.
J. M. Gardner, Toronto.

General Offices: 524-528 Broadway, Corner Spring St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First: The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second: To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third: To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth: For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this Association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories and reference media contain; to study public needs and make Directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the Directory and reference media be made to serve their fullest use as business and social reference books and Directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicly upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories and reference media in public service and then to strive in every legitimate way to promote that function.

$100 reward will be paid by the association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.

STAUNTON'S TWO DAILY NEWSPAPERS

THE EVENING LEADER
THE MORNING NEWS-LEADER

ALWAYS ALERT---
ALWAYS GROWING

Twenty-three years under one management. Independently democratic in policy and devoted to the best interests of Staunton and its adjacent territory.

Members Associated Press, Virginia Press Association, Audit Bureau of Circulations and Southern Newspaper Publishers Association.

Over 7,000 combined audited circulation.

Shrewd buyers of advertising space do not overlook The Leader Papers.

Informative to their readers—invaluable to their advertisers.
